Bandung, West Java, Indonesia

As an undergraduate majoring in Informatics at Telkom University, my passion lies in Mobile App & Web Development. Beyond my formal education, I actively participated in Mathematics Olympiad Competitions at regency, provincial, and national levels during high school, honing my creative problem-solving skills and the ability to work efficiently under pressure. These experiences instilled in me not only strong mathematical abilities but also a logical approach to problem-solving. With solid programming skills in Mobile App & Web Development, coupled with my commitment to staying updated on industry trends, I am poised to make meaningful contributions to the field. I believe that my academic background and software development skills make me a valuable asset for any Mobile App & Web Developer Job.
